

## **CARL POOL SPECIALTY PRODUCTS**

### **Root Activator**

Root Activator is a 100% natural product which safely promotes regeneration of roots through increased elongation rates. It stimulates fast root growth, reduces transplant shock, and speeds plant establishment. Use on all newly planted or transplanted plant material.

| <u>Case Pack</u> | <u>Code</u> |
|------------------|-------------|
| 12/32 oz         | 90032       |
| 4/1 Gal          | 90128       |
| 2/2 ½ Gal        | 90250       |
| 55 Gal           | 04955       |

### **Soil Acidifiers**

Carl Pool Soil Acidifiers are soil conditioners for gardens and landscapes planted in a high pH, alkaline soil. Alkaline soils lock up important nutrients that might be present in the soil, but are unavailable to the plant. The liquid formulas are easy for all gardeners to use.

|------------------|-------------|
| 12/32 oz         | 24032       |
| 4/1 Gal          | 24128       |
| 2/2 ½ Gal        | 24250       |
| 55 Gal           | 24550       |

### **Soil Sul (Liquid Sulfur)**

With 17% Sulfur and 5% calcium, Soil Sul helps restore dark green color to plants, lowers pH of alkaline soils, loosens soil to improve water penetration, and helps release nutrients locked in soil.

|------------------|-------------|
| 12/32 oz         | 26032       |
| 4/1 Gal          | 26128       |
| 2/2 ½ Gal        | 26250       |
| 55 Gal           | 05155       |

### **Mineralized Acidifier**

25% S 14% Fe With extremely high quantities of six important supercharged trace elements, Carl Pool's Mineralized Acidifier works best on nutrient deficient soils. This easy to spread granulated form should be used throughout the year for optimal results.

| <u>Case Pack</u> | <u>Code</u> |
|------------------|-------------|
| 6/5# Pail        | 25050       |
| 20# Bag          | 25020       |
| 40# Bag          | 25040       |

### **Iron Chelate (DTPA) 11%**

DTPA is a superior form of iron which is more soluble, and more readily available to the plant than other types. Foliar application works best on all types of trees, shrubs and lawns.
